## SKILLS

Web Development

Mobile Development

Teamwork

Creativity

## LANGUAGES

English  
*Full Professional Proficiency*

Hungarian  
*Native or Bilingual Proficiency*

German  
*Limited Working Proficiency*

## INTERESTS

Machine Learning

AI

Icehockey

Travelling

Software Development

## EDUCATION

### Primary Education

Weöres Sándor Primary and Secondary School

2010 - 2018

### Secondary Education

Weöres Sándor High School

2018 - 2023

Advanced

▫ Mathematics

▫ Computer Science

*Preparatory year - Intensive English*

## EXPERIENCE

Intern at Getcon (08/2023 - 01/2024)

- Replacing old routers from Schools in Hungary
- Setting up factory new Routers
- Physical Assessment of Several Data Centers in Hungary

Professional Icehockey Athlete (2008 - 2023)

- Team Captain (2019, 2020)
- 3rd Place - Hungarian Hockey League (2019, 2021)

Member of the Student Council (2020 - 2023)

Represented my high school at national competitions as an athlete

## PERSONAL PROJECTS & COURSES

Machine Learning Specialization (Andrew Ng) from Coursera

*This course introduced me to ALL types, algorithms and models of Machine Learning with a deep explanation behind the math and processes with practices in Jupiter Notebooks using Python, Numpy, Tensorflow*

React Native Development (Meta) from Coursera

Fullstack Development (Meta) from Coursera

Developer of Clippify

*Clippify is a Web and Mobile App for video trimming, note taking, powered with OpenAi API and self build Neural Network for speech recognition (React, React Native, Javascript, Python, FFmpeg, Firebase)*

Self-Built Neural Network - Speech To Text

*This project taught me a lot about planning, building a Machine Learning Model (Neural Network) inspired after taking Machine Learning Specialization by Andrew Ng at Coursera*
